HEAD HUNTER

JIGHEADS

Rev Head Jigs combine the benefits of a Jig Head, Tail Spinner and Spinnerbait into a single, very versatile lure. Just add your favourite soft plastic.

The Rev Head range is built on Mustad Aberdeen hooks. These fine-wire hooks are suitable for Bream, Bass, Flathead etc.

Important facts about hooks

Gamakatsu and Mustad hooks are not the same size!

Mustad hooks are generally one size larger than Gamakatsu in the Head Hunter Mustad Aberdeen range and are 2 sizes larger in the Head Hunter – extra Heavy Duty range. Therefore if you are after a 5/0 hook size you would choose a 5/0 in the Gamakatsu range **but** you would select a 4/0 in the Head Hunter – Mustad Aberdeen range and a 3/0 in the Head Hunter – Extreme Heavy Duty range. The general rule when choosing from the Head Hunter range is to go one size smaller for the normal Head Hunter jig and two sizes smaller for the Extreme Head Hunter jig.

Jig Spinner TT Jig spinners are made from quality components. All blades are manufactured on brass blanks so will not rust. Jig spinners are packed in blister packs similar to the jig heads. Each pack contains three spinners.
